Forecast For Northeast England
Issued by Met Office Exeter
at 0400 on Friday 06 Aug 2021

++ Valid for broadcast between 0600 and 1800

Headline:
Scattered showers, with thundery downpours possible.

Today:
Overnight rain soon clearing during the morning with a few brighter intervals possible. Showers also moving into the Pennines, however, before spreading to all parts by the afternoon. These heavy and thundery at times, with slow moving torrential downpours possible. Maximum temperature 20 deg C (68 deg F).

Tonight:
Heavy showers, with some thundery bursts continuing into the evening, before gradually easing overnight. Staying rather breezy and cloudy. More persistent rain moving into western Pennines by dawn. Minimum temperature 11 deg C (52 deg F).

Saturday:
Early rain across the Pennines spreading across the region. This breaking into sunny spells and scattered showers by the afternoon, occasionally heavy with the risk of thunder. Staying rather breezy. Maximum temperature 18 deg C (64 deg F).

Outlook for Sunday to Tuesday:
Sunny spells and showers, with a risk of thundery downpours Sunday and Monday. Perhaps longer spells of rain on western hills. Drier Tuesday, with some sunny spells. Temperatures near average.
